

Eight Sided Sewing Box

14th - 15th January

with ... Di Magro

The box has been made using Antique Japanese fabrics. There are four embroidered and four plain panels as well as the embroidered lid.

The embroidery emphasises the pattern on the fabric.

The pattern is subtle but the embroidery brings a richness to the fabric and really outlines the design.

You will have the fabric supplied in plenty of time enabling you to choose your threads.

Di has used Silk threads both variegated and plain as this beautiful Kimono fabric deserves the best threads and with fascinating embellishments including beads, twisted cords, buttonhole rings and an interesting button.
