

Stitch Play on Canvas

Stitches, colour and texture

9th - 10th January 2021

with... **Effie Mitrofanis**

Two day workshop

Traditional canvas work and surface stitches from whipped running to composite will be worked in geometric, random-freestyle, or a combination of both on gold-painted woven mono canvas.

Choose a variety of threads such as *perles*, gimp, space-dyed, stranded, gold twist and any other yarns you care to use.

Twelve count mono canvas is a very accommodating and sympathetic medium to apply embroidery stitches to create colour, texture and pattern.

This workshop will provide a unique experience to apply surface and counted stitches to a geometric grid and discover the result of mixing counted, free-style and random surface stitches onto a geometric grid.

Suitable for all
levels of experience
