

Kumihimo Braiding

18th & 19th January 2021

Two day workshop

With... **Judith Langdon**

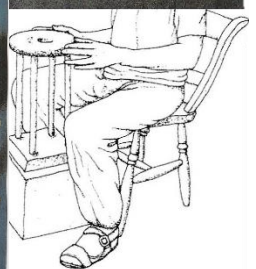

Kumihimo is an ancient technique of braidmaking.

We will learn to make some basic braids using a *marudai* or braiding stool.

The Japanese traditional *marudai* is a beautiful and expensive piece of equipment, but really good results can be obtained using much more humble items.

Embroiderers will find many uses for these lovely braids and enjoy the rhythmic nature of the process.

No previous experience needed, but preparation of equipment is required.
